Financial Accounting
- 100% accuracy is the only thing acceptable
- Most small businesses don’t use a plan/strategy
  - This hurts small businesses in the long run
  - 55% fail in the first 5 years; 11% fail every year after 5 years
    - Reason? Cash Flow
- To be successful and increase a business's income:
  - Find financing( investments)
  - Cut expenses
  - Get a job
- Teach people how to have accurate financing
  - In return, you are making yourself profitable
